

Speech and Language Therapy Pack – Adjectives (Describing Words)

Adjectives (Describing Words)

- Teach the child the words below and find some items that represent each adjective, e.g. a teddy is soft
- Ask them to find a range of objects around the home that represent each adjective. You may need to stage some items and make them more obvious / available to you. E.g. “find something that is clean”, “find something that is broken” etc.
