

## Safeguarding Briefing

January 2026

Happy New Year and welcome back. We know that January can be tricky for all sorts of reasons - don't forget that the team is **always here to listen** and support if you need someone to talk to. As Hayley always says: **remember, you are human first.**

### Updates from the Education Safeguarding Team

#### Update the DSL Contact Sheet

Please update the DSL contact sheet if needed so that we have correct contact details for DSLs in your school. This is shared with social care so it is important that this is accurate. Please read the guidance below:

## The Myth of Invisible Men

THE CHILD  
SAFEGUARDING  
PRACTICE REVIEW PANEL

This [national review](#) by the Child Safeguarding Practice Review Panel investigates why fathers and male carers - despite being disproportionately responsible for serious harm or death of babies under one year - remain largely “invisible” within safeguarding systems.

### Key findings include:

**Disproportionate Risk:** Fathers are 2–15 times more likely than mothers to inflict non-accidental injuries on babies.

**Systemic Blind Spots:** Universal and specialist services often fail to engage fathers, leaving risks unassessed.

Although the report focuses on babies under one, the **key recommendations** are applicable to all:

Safeguarding systems must **make the invisible visible** by:

- Actively engaging fathers.
- Understanding their vulnerabilities and histories.
- Designing services that challenge/support men as parents.

### In light of this, CFCs requests that DSLs:

- Have professional curiosity around the men in the child and family's life - ask, observe etc
- When completing referrals, include names and information about men in the child and family's lives.

**DEADLINE**

### Police Contacts - updated with mobile numbers

Please see the updated list: [Police Contacts Jan '26](#)

Please contribute to a short survey as part of a new research project examining how vulnerable children are supported through four early educational transitions: Early Years to Reception; Reception to Year One; KS1 to KS2; Primary to Secondary.

We are particularly focused on **children who are Black and minoritised, SEND, SEMH, care experienced or from low socioeconomic backgrounds**, as these groups remain overrepresented in exclusion, low attainment and youth justice data. We are developing a prototype *Transitional Safeguarding Framework* and your insights will play a crucial role in shaping its design.

## Resources

### Glossary of CYP terminology

A collection of words and phrases commonly used by children and young people at home, at school and online. There are three sections:

1. **General slang terminology**
2. **Incel related terminology**
3. **Gang related terminology**

It is important to update yourselves and your staff as some words and phrases are harmful and therefore must be recognised and challenged. They may also signal involvement with harmful interests or groups. Please also share with parents.

### Glossary

### New resource for parents

The Children's Commissioner for England has published a guide which:

- Explains common online challenges
- Helps families start and sustain open conversations

## Sharing Good Practice

During our safeguarding reviews, the team saw some excellent examples of:

**Safeguarding CPD at Nonsuch Primary School** - Safeguarding updates are included in every weekly staff meeting and there is a title page with a list that shows all the topics previously covered. Staff often complete questionnaires to check their understanding which is then used to inform any future updates or training.

**Wellbeing check-ins with pupils following holidays** - Thank you to Debbie Nichol and Aimee Bennett at Muschamp Primary School for sharing the following resources they use: [Safe and Happy Holidays](#) and [Wellbeing Questionnaire](#)

**“Yes it’s helped my job, but it’s actually really helped me as a person - helped my mindfulness, my mental health, my relationships...and I will be eternally grateful to Hayley for that.**
